

Renewable Energy Project Manager

Position Description

Reporting Senior Manager Major Projects	Location Morwell	Hours Full time	Contract Ongoing	Reports 2	Job Level Manager
--	----------------------------	---------------------------	----------------------------	---------------------	-----------------------------

The Purpose

The Renewable Energy Project Manager will take a lead in GLaWAC’s response to the development of an offshore wind industry on Gunaikurnai Sea Country. Responsibilities include implementing activities arising from agreements with offshore wind developers, stakeholder engagement, project planning and delivery, legislative and technical support and advice, and reporting and system development.

A valued member of the Growth and Sustainability team, you will report to the Major Projects Senior Manager, and work collaboratively to ensure the success of continuous improvement initiatives. This role will support the delivery of Renewable Energy industry transition projects within Gippsland, delivering innovative and quality outcomes with a high level of community focus.

The Role

Implement activities arising from agreements with offshore wind developers.

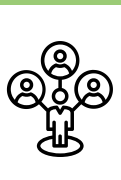

Develop detailed project plans. Manage project delivery within timeframes, scope and budget.

Assist with the development of the renewable energy projects aligned to the Gunaikurnai Whole of Country Plan, Economic Development Strategy and community aspirations.

Develop strong relationships with the Gunaikurnai community to build understanding, respect and connection to culture to support their aspirations.

Provide technical support and advice relating to renewable projects including strategic meetings, technical working groups and other associated forums.

Lead, develop and maintain relationships of mutual respect with stakeholders, agencies, community & staff.
