

WORKS AREA PLAN
SCALE 1:1000

NOTE

OUR SITE INVESTIGATION HAS FOUND THAT THE MACALISTER RIVER HAS UNDERGONE SIGNIFICANT MAN-MADE ALTERATIONS, INCLUDING EVIDENCE OF PARTIAL FILLING. BECAUSE THESE CHANGES RESULT FROM HUMAN INTERVENTION RATHER THAN GRADUAL, NATURAL PROCESSES, THE ORIGINAL CROWN BOUNDARIES OF THE MACALISTER RIVER HAVE BEEN RE-ESTABLISHED.

TO RE-ESTABLISH THESE BOUNDARIES, WE HAVE DEFINED THE MACALISTER RIVER AND CROWN RESERVE BOUNDARIES BASED ON DIGITISATION OF THE ORIGINAL PUTAWAY PLAN, WHICH IS THE MOST RELIABLE RECORD OF THE BOUNDARY'S POSITION BEFORE THE SITE WAS MODIFIED. WHILE WE HAVE BEEN DILIGENT IN THIS WORK, SURVEY ACCURACY IS LIMITED BY THE SCALE AND DRAFTING PRECISION OF THE SOURCE PLAN, AS ORIGINAL SURVEY FIELDNOTES WERE UNAVAILABLE TO FURTHER DEFINE THE ORIGINAL BANK CHARACTERISTICS.

IN ADDITION TO THE ABOVE THE CURRENT BED AND BANKS OF THE MACALISTER RIVER IS CONSIDERED CROWN LAND.

LEGEND			
	CADASTRE BOUNDARY		EDGE OF TREE LINE
	ACCESS TRACK (PROPOSED)		TREE CANOPY (RETAINED)
	LAYDOWN AREA		TREE CANOPY (TO BE REMOVED)
	CREEK BOUNDARY		SPRINKLER JUMP UP
	FENCE		TREES NOT IMPACTED / IMPACTED
			IMPACTED NATIVE VEGETATION
